

Vaping and E-cigarettes

Dangers and Health Risks for Teens

Family Workshop for Parents and Professionals
Wednesday March 14, 2018
7:00-8:30 pm

This workshop is intended for parents and Professionals working with teens.

The presentation will offer facts and information about E-cigarettes and vaping. Discussion will include tips for talking with your teen about the addictive and harmful effects of vaping.

E-cigarettes are relatively new products and many people don't know much about them. For example, many young people don't know that most e-cigarettes contain nicotine.

E-cigarettes are available in a wide variety of flavors, including many that are especially appealing to youth. More than 85% of e-cigarette users ages 12-17 use flavored e-cigarettes, and flavors are the leading reason for youth use. More than 9 of 10 young adult e-cigarette users said they use e-cigarettes flavored to taste like menthol, alcohol, fruit, chocolate, or other sweets.
