

March 26, 2020

Good Morning NEC Families and Staff;

As you have probably heard, Governor Baker has ordered all schools closed until may 4th. I know that this will be difficult, but health and safety is the number one priority. I will be attending several meetings today and tomorrow with the Commissioner and Regional Special Education Leaders, as well as with the NEC Leadership Team, and we will begin making plans for how to best support your children's education over the coming month. I will send a lengthier message on Monday outlining some of our plans, and you will be hearing directly from your child's team as well.

Again, please let us know if there is anything you need. Our NEC family will stay strong through this difficult time!

Yours,
Fran
